ORANGE ZEST

SIMPLY CITRUS NURSERY GROWS COLD-HARDY VARIETIES IN SC'S MIDLANDS

STORY BY HANNAH ARNDT • PHOTOS BY STEPHANIE FINNEGAN

Simply Citrus Nursery is not hard to spot. Nestled in a pine tree-lined neighborhood in Columbia, South Carolina, the colorful fruit and citrus scents draw you in.

Ben Salley, owner of Simply Citrus, has been growing citrus in the Midlands for 20 years, alongside his wife Mary. His interest in citrus was sparked after visiting his brother who lived across from a grove in central Florida.

The Hamlin orange produces tasty juice, with some seeds, and is hardy to around 20 degrees.

This mandarin hybrid is hardy to the lower 20s and matures in December.

The Ponderosa Lemon produces large, acidic fruit, and is cold sensitive.

"I couldn't see it, but I could smell it, and that's how it started," said Salley.

While in Florida, Salley developed relationships with several nurseries, which provided him with the knowledge he needed to start growing a few citrus trees in Columbia. But what started out as a hobby now has turned into a full-time business. With over 130 cultivars and varieties and 76 trees spanning across oranges, grapefruit, lemons, kumquats, and more, his fruit and his business are thriving.

"There's really not anything that we don't have growing," Salley added.

When it comes to growing citrus in Columbia, some may think it is impossible due to climate, pests, and other issues.

"We still have people come by and say, 'You can't grow

Ben Salley with a blood orange called Sanguinelli, hardy to the lower 20s and late maturing, with a berry orange taste.

citrus fruit in South Carolina,' said Salley. Simply Citrus Nursery protects their fruit during colder weather in a variety of ways, including the use of thermocubes, thermostatically controlled plugs, as well as incandescent clamp lights and other heat sources that help with temperature control. These devices, paired with frost blankets for when temperatures fall below 25 degrees and strategic planting that blocks wind to avoid drying out the citrus, allow the hardy fruits to prosper year-round.

Most citrus trees in South Carolina go semi-dormant, which means the trees stop putting on new growth, so when a freeze hits, vulnerable new growth is not killed or damaged by heavy frosts or freezes. Six trees over 10 years old at Simply Citrus Nursery have never been covered.

"It is really the unusual weather events, like 24 hours below freezing or extended winter events of much below normal temperatures, that you need to look out for," Salley said.

For those interested in growing citrus in the Midlands, Salley notes that kumquats, satsuma mandarins, and Meyer lemons have better hardiness than other kinds of citrus.

Beyond just growing fruit, Mary Salley makes a variety of marmalades and jams like hot pepper jam, limequat marmalade, and classic orange marmalade, among others.

If you would like to buy fruit or marmalade from Simply Citrus Nursery, you can find them at the Fall and Spring Plant and Flowers Shows at the SC State Farmers Market in West Columbia and on Saturdays on the 1500 block at Soda City Market. To contact Simply Citrus Nursery, call Ben Salley at 803-466-0200 or find them on Facebook at facebook.com/simplycitrusnursery. Please call before visiting the nursery.

BACK TO BUSINESS

Happy New Year. Looking at the calendar reading 2020, it seems like the opening of a future-based science fiction movie. I guess we all thought we'd have flying cars like the Jetsons by now.

But we're still driving on the ground and dealing with issues. For the last year or so and as this new year begins, one issue, the U.S.-Mexico-Canada Trade Agreement (USMCA), is on the minds of a lot of people across the continent, from farmers to politicians.

For the past 25 years, the North American Free Trade Agreement (NAFTA) nearly eliminated Mexican and Canadian tariffs on U.S. exports, which was good for U.S. farmers. Mexico and Canada have long been two of this country's biggest export markets for food and agricultural products. Those exports more than quadrupled from \$8.9 billion in 1993, the year before NAFTA began, to \$45 billion in 2019. The National Association of State Departments of Agriculture estimates that in 2016, South Carolina had \$126 million in agricultural exports to Canada, and \$21 million to Mexico.

But change is inevitable, and the new USMCA is a great opportunity to modernize NAFTA. For one thing, it will open up the Canadian market to U.S. dairy, poultry and eggs, a key long-held priority for U.S. farmers. And it'll update some trade policies on intellectual property and sanitary and phytosanitary measures. On occasion,

these measures can become non-tariff barriers to trade.

A lot of work has gone into this new trade agreement, and I hope we'll see it fully ratified and in effect soon. That depends on Washington and I've learned not to count on too much to be done in a timely fashion.

Of course, the beginning of a new year is when farmers spend a lot of time in meetings.

One big event on my calendar this month is the Commissioner's Breakfast at the SC AgriBiz and Farm Expo. I'll give an update on the "State of South Carolina Agriculture" and enjoy good fellowship. The breakfast is a fundraiser for Advocates for Agriculture, with beneficiaries including many youth-oriented ag activities around the state. The Expo is Jan. 15 and 16 in Florence, and the breakfast is Thursday, Jan. 16 at 8 a.m.

Here are some other meetings you might want to put on your calendar:

- Cotton Annual Meeting**
January 28
- Peanut Annual Meeting**
January 30
- SC Association of Farmer Markets Annual Meeting**
January 14
- SC Agritourism Assoc. Annual Conference**
January 27 – 28
- Watermelon Annual Meeting**
Weekend of January 31
- SC Specialty Food Association Meeting**
February 3

Happy Meeting Season, and best wishes for the New Year!

Hugh E. Weathers

UPCOMING EVENTS

Yoga at the Dairy Barn
January 7 • 6:15 – 7:15 pm
Flow with us this winter every Tuesday in our historic Dairy Barn! These classes will focus on bringing awareness to the mind, body, and breath through a variety of yoga poses. All are welcome, from beginners to seasoned yogis! Please bring your own yoga mat and water bottle. \$5 per class. All payments must be made at the Dairy Barn welcome kiosk. Please note that non-Greenway members will also pay a \$5 entry fee to the Greenway.
Anne Springs Close Greenway
194 Adventure Road, Fort Mill

Purple Martins: Beyond Bomb Island
January 11 • 10 am
Come learn about Purple Martins, why they need protection, and how to become a Purple Martin landlord by setting up your own colony of Martin Houses. Every Purple Martin you see flying around Bomb Island on Lake Murray in the summer was born in a birdhouse. Since they no longer nest naturally, they need us to put up housing for them to nest and raise their young in. Cost: \$10. Space is limited, and advance registration is required. Register online or call.

The South Carolina
Market Bulletin

(ISSN 0744-3986)

The Market Bulletin is published on the first and third Thursday of each month by the SC Department of Agriculture, Wade Hampton Building, Columbia, SC 29201. Periodicals postage paid at Columbia, SC 29201.

Postmaster, send address changes to:
SC Market Bulletin, PO Box 11280, Columbia, SC 29211

POLICIES FOR ADVERTISING

For full policies, visit:
agriculture.sc.gov/market-bulletin/market-bulletin-policies

Only ads pertaining to the production of agricultural products and related items are published. Ads are accepted for South Carolina items, even if the seller lives out of state, provided the item is in state at the time the ad is published and at the time of sale.

Ads are published free of charge and in good faith. The Market Bulletin reserves the right to edit and verify ads but assumes no responsibility for their content.

Ads cannot be accepted from agents, dealers, or commercial businesses, including real estate. Sealed bids, legal notices, or consignment sales are not accepted.

SUBMITTING ADS

No matter the submission method, you must include the advertiser's name, complete address with zip code and county, and phone number with area code with your submission. Do not use all capital letters.

Email: Send ads to marketbulletin@scda.sc.gov. Put the words "Market Bulletin ad" in the subject line.

Online: Go to agriculture.sc.gov/market-bulletin. Select "Submit Market Bulletin Ad" and complete the form. If you include your email address, you will receive an automated reminder for a renewal.

Mail: SC Market Bulletin, PO Box 11280, Columbia, SC 29211. You must use 8.5 x 11 inch paper.

Fax: 803-734-0659

The deadline for submitting ads and notices is noon on Tuesday of the week before the publication date.

SC AGRIBIZ AND FARM EXPO RETURNS FOR EIGHTH YEAR

BY MIRIAM PFLUG, EXPO SHOW COORDINATOR

The eighth annual SC AgriBiz & Farm Expo features a great lineup of programming, speakers, exhibitors, hands-on activities, great food and lots of information.

Make plans to attend the Expo at the Florence Center, located at 3300 West Radio Drive in Florence, South Carolina, on Wednesday, Jan. 15 and Thursday, Jan. 16, 2020.

The Expo kicks off with the Farmer Appreciation Breakfast on Wednesday, Jan. 15, at 8:30 a.m., featuring keynote speaker Dr. Ron Prestage. Prestage is a hog and turkey farmer and owner/president of Prestage Farms — no stranger to agriculture and Carolina farmers. An engaging and dynamic speaker, Prestage will share challenges and opportunities in the agricultural and agribusiness industry, including key environmental battles, animal welfare, commodity markets, and effects of urban sprawl. He will also discuss some exciting industry expansion projects and future opportunities for farmers.

The trade show floor will open at 10 a.m., providing an opportunity for farmers to connect with suppliers and see new products.

The 2020 Expo presents several different tracks, so there is something for everyone. The lineup includes a Forestry Track on Wednesday morning which includes presentations about the next beetle outbreak, how to combine farming and forestry, how forestry is an alternate income source as well as an educational session on good pond management.

On Thursday, Jan. 16, Dr. John Chastain with Clemson University will present the

Confined Animal Manure Managers (Camm) Conference providing five credit hours for \$125. This session will provide lots of recertification educational credits needed.

The Fruit, Veggies & Alternative Track will have two days of information on various crops and how to meet customers' needs as well as information on growing alternative crops and alternative income sources for your farming operation.

New this year will be the Carolina Hemp Conference. The two-day schedule includes educational classes on the economics of growing hemp, diseases diagnosed to date, insurance, the diversification of hemp, how to build a successful hemp company, package distribution and much more. There will be top speakers from around the country.

As in previous years, there will be a Women In Ag Track as well with information shared on profitability, meeting with other successful women farmers to learn from their experiences, and the Women's Leadership Session.

And to top off a great Expo, there will be the outstanding Taste of South Carolina on Wednesday evening and the Commissioner's Breakfast on Thursday morning. Visit the website at scagribizexpo.com to obtain your tickets for these events. As in previous years, general admission to the Expo is free and open to all.

Mark your calendar, purchase your special events tickets, and see you Wednesday, Jan. 15, and Thursday, Jan. 16.

AGRIBUSINESS ENTREPRENEURS LEARN BUSINESS SKILLS, PITCH IDEAS

BY EVA MOORE

Fifteen entrepreneurs participated in the 2019 ACRE/Clemson Extension Curriculum program, and five of them have been awarded \$5,000 each for their agribusiness projects.

The South Carolina Department of Agriculture founded the Agribusiness Center for Research and Entrepreneurship in 2018 to help identify and nurture new ideas and businesses in the Palmetto State's agribusiness sector. One of its programs is the ACRE Curriculum, a partnership with Clemson Cooperative Extension that guides beginning entrepreneurs through creating a business plan and other business skills.

In its second year, the ACRE Curriculum program offered skills training and opportunities for entrepreneurs to network and learn.

"This year, I think we vastly improved on what we were able to deliver to these 15 businesses," said ACRE Executive Director Kyle Player. "Only three of our 15 had any semblance of a business plan when we started, so we taught them about business planning, finances, marketing, operational planning, how to give a pitch, how to apply for a grant or loan," and other crucial business skills.

Following a live "Pitch Day" on Dec. 17, a panel of judges awarded five participants \$5,000 each for their projects:

- Ben Crawford and Rebecca Goldberg of Woodland Valley Mushrooms grow gourmet mushrooms in a converted shipping container in the Aiken County area. Crawford and Goldberg plan to acquire and upfit a second container to expand their market.
- Justin Hancock of Wando River Farm, a small produce farm in the Lowcountry with a

community-supported agriculture (CSA) program and a few restaurant clients, plans to expand the farm's production.

- David and Caroline Harper run CHI design indigo, a Midlands company making hand-dyed indigo textiles and working to bring back the historic crop to South Carolina. The Harpers are working with three in-state farms to grow indigo, and have plans for further educational outreach.
- Melissa Price of Saluda-based Patchwork Farm plans to use the ACRE funding to launch an educational agritourism project in which students will be able to adopt a cow on her farm and follow it virtually from their classroom. "We're always looking for ways to connect kids with agriculture, because that is a disconnect these days, unfortunately," Player says.
- Toshiba Traynham-Jackson is one of three family members behind Jackson Farms II, which sells produce in the Upstate. They plan to build a mobile farmers market to serve food deserts in their area, expanding their community outreach as well as their business.

"We obviously had 10 other wonderful ones, but we only could give funding to five of them," Player noted. "But it wasn't just about the money; it was about helping them make connections, helping them build business plans, helping them meet peers, and to continue a relationship with ACRE."

ACRE also has a track for more experienced entrepreneurs looking to push their businesses to the next level with funding. Applications for that track will open in spring of 2020.

To learn more about ACRE, visit acre-sc.com.

SC SOYBEAN FARMER RE-ELECTED TO NATIONAL BOARD

BY UNITED SOYBEAN BOARD

ST. LOUIS — United Soybean Board farmer-directors elected Jim Carroll III from Brinkley, Arkansas, as Chair at the annual board meeting on December 11. The board also elected nine directors to serve alongside Carroll on the Executive Committee, including Woody Green of South Carolina.

In addition, 19 new directors, appointed by Secretary of Agriculture Sonny Perdue, were sworn in by the U.S. Department of Agriculture.

"We've made great strides to innovate beyond the bushel and infuse every opportunity we can into growing markets and creating new uses for soybeans," said Carroll. "We have a lot to be proud of but also have tremendous potential to further demand as we continue our progress through wise and strategic investments. One of my priorities as Chair is to recognize the performance and sustainability of U.S. Soy and show our customers its many capabilities as a renewable alternative."

USB leadership, with oversight from USDA, guides the activity of the national soy checkoff in accordance with the strategy outlined by the 78-member board. USB continues to focus on three priority areas for investment: meal, oil and sustainability. During the meeting, they considered market impacts, challenges and opportunities that will affect soybean value, hearing from several key industry influencers. USB also recognized the American Soybean Association's 100th anniversary at the meeting, noting its commitment to domestic and international policy issues important to the soybean industry.
